Festivals, temples and large events

Hundreds or thousands of viewers, multi-day festivals, monthly plans for temples and event companies, and charity events are quoted one by one so the price matches your event.

- Up to 1,000 viewers or more
- Multi-day and monthly plans
- Audio-first mode for big devotional events
- Server tested before the day

Tell us the date, the number of guests and how many hours, and we will send a quote.

How it works

- **1. Create your event website** with names, date, venue, schedule, photos and invitation card.
- **2. Share the link, QR code or WhatsApp message** with your guests.
- **3. Go live from any phone, tablet or laptop.** Guests watch on the same page, no app needed.

Good to know

- Guests only need a phone or computer with internet. No account is needed to watch.
- The person broadcasting needs a steady internet connection. Wi-Fi or a good mobile signal works best.
- If a connection is weak, the video quality lowers automatically so the stream keeps playing.
- Telugu and Hindi text is entered by you, so the page shows exactly your wording.

Prices and limits are for planning and may change. GST at 18% is added to every price above.
